# Project Information & Public Comments

Starting Friday **June 12<sup>th</sup>** through **Tuesday June 30<sup>th</sup>**, the City of Auburn is seeking public comment and feedback regarding the proposed 75% design development site plan and the exterior elevations of the renovated and new construction buildings. Due to the COVID-19 crisis, the City of Auburn is unable to host in-person public comment or design charrette meetings. Therefore there are three social distancing compliance ways the City is offering for the public to provide review and comment on this important capital project.

- **Video:** A recording of a public presentation to City Council of the 75% design development plans is available for viewing at: <https://www.auburnny.gov/auburn-city-council/pages/council-meeting-videos>
- **Website:** The proposed site plan and exterior elevations are available on the City Website for viewing. <https://www.auburnny.gov/home/news/public-comments-sought-future-public-safety-facility-be-built-31-seminary-street>
- **In Person** at 31 Seminary Street: Large information boards have been placed in the windows at 31 Seminary Street for public viewing.
